Workshops

in the context of the exhibition „ANONYMOUS DRAWINGS ARCHIVE“

1. Workshop

drawing between coincidence and control

Thursday, March 21, 2019

Time: 10 to 16 o'clock

Break: 12 to 14 o'clock

Location: Kunsthaus Kannen

In this workshop, we experiment with different drawing techniques, in which the random line and the spontaneous idea interlock with controlled gestures and clear structures. In the morning, we work together to create collaborative works that abolish individual authorship. We experiment with "Cadavre Exquis", the playful method developed in Surrealism, to give room to chance in the creation of texts and images.

2. Workshop

Inside / Outside - Community drawing on the glass facade

Sunday, May 12, 2019

Time: 10 to 16 o'clock

Break: 12 to 14 o'clock

Location: Kunsthaus Kannen

In this workshop we use white chalk pencils to grow trees, bushes, scrub, branches and plants on the glass façade of the Kunsthaus. The park, which surrounds the Kunsthaus, will be enlarged with drawing tools and will become part of the current exhibition. It will create a large-scale community drawing on glass, which forms the interface between gallery interior and the outside world.

You can register by email for a workshop at the Kunsthaus.
